

Park Life

When you walk around the park you can see all sorts of plants and animals. These pictures that were taken in the park just up the road from the Museum.

In the trees

This tree is missing all its leaves.

What time of year do you think it is?

A robin

Birds live in nests

A blackbird

Squirrels live in nests called dreys

Who lives here?

These mounds are made by an animal that lives underground.

In the pond

A swan

Swans make
their nests in
reeds

Ducks

What do ducks'
feet look like?

A goose

A coot
